DETAILED ACTION

Continued Examination Under 37 CFR 1.114

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after allowance or after an Office action under *Ex Parte Quayle*, 25 USPQ 74, 453 O.G. 213 (Comm'r Pat. 1935). Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, prosecution in this application has been reopened pursuant to 37 CFR 1.114.

Applicant's submission filed on 8/30/2005 has been entered.

2. Claims 43-78 are pending in the application.

Claim Rejections - 35 USC § 102

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

4. Claims 43-78 are rejected under 35 U.S.C 102(b) as being anticipated by Applicant's submitted prior art, Yamada et al., JP 6-118426.

The above claims are anticipated by Yamada et al. figures 1-2, 5 and accompanying text which disclose a liquid crystal display device comprising:

- . a first substrate (lower substrate 10) and a second substrate (upper substrate 20);
- . a thin film transistor (13);
- . a liquid crystal layer (30) driven by parallel field (applying electric field to electrode 14 and 15);

Art Unit: 2871

- . a transparent conductive material (22) formed over the second substrate;
- . a black matrix (21) as claimed.
